Firebase

Experience

Frontend Developer Vatebra Limited

Working as a frontend web developer, I was responsible for building marketable and user friendly interfaces whilst working closely with the UI/UX designers and also with the backend developers in either consuming already built .net APIs or serving templates.

Accomplishment:

- Built UI for some of vatebra's solutions such as **WeAPPROVE, ITEMIFY, VATDOC, EVERIFYER, APPRAISEMe, AdServe.**
- Gained experience in writing the views, routes and controllers in **C# .net mvc** using razor pages and cshtml
- Gained experience as a team lead leading other Junior developers.

Software Developer Shoklin

The web application allows laundry users to register, request for their clothes to be picked up and get an estimate.

Accomplishment:

- Gained experience using redux for state management in a large scale project.

Education

B.Eng Agricultural Engineering

University of
Ilorin, Ilorin
Kwara.
(2015-2021).

- Wrote 100% of the code, including firebase for the backend, Authentication and security, and application was completed in the space of 2 months

Projects

Apple(Clothing Store app)
